

REMARKS

Claims 107-159 are pending. Claims 107-111, 114-118, 120-123, and 125-150 have been amended. Claims 151-159 have been added. Claims 123, 125, 145 and 147 have been canceled without prejudice. No new matter has been added.

This Supplemental Amendment In Response To Non-Final Office Action is being submitted upon the permission of Patent Examiner Duffy, following an interview of the case on August 26, 2005.

The claims have been amended as discussed with the Examiner during the interview. Support for the claims can be found throughout the specification, for example in paragraph 181 (for cancers expressing the 5T4 cancer antigen) and in paragraphs 107-138 for compositions. Additionally, the accompanying Declaration by Dr. Göran Forsberg supports the claims.

This Supplemental Amendment incorporates herein the arguments and declarations that were submitted in the original response, filed May 5, 2005, to the Office Action of January 5, 2005. Therefore, solely in the interest of avoiding submitting duplicate papers, these arguments and declarations are not repeated herein. Although, they expressly remain a part of the response to the Office Action of January 5, 2005.

Applicants appreciate the interview extended them by the Examiner on August 26, 2005. Applicants believe that the present claims are in condition for allowance. A Notice Of Allowance is therefore respectfully solicited. In the event that the Examiner has any questions or comments, she is encouraged to telephone the undersigned for quick resolution of any remaining issues.
